An Ode to Galileo

Fifteen years is all it took
For Galileo to get us hooked.
We depend on its sources every day
To help us get a grade of "A"

Databases from A to Z
As easy to use as 1, 2, 3
Just type a search term and click "submit"
Hundreds of resources it will hit.

Articles, images, videos and more,
Galileo has information galore.
Numerous resources on which you can rely,
No need to "Ask Jeeves" and risk the reply.

You can waste time sifting through other sites
And still never find the source that's right.
So search and search but try as you might,
You'll never find a better site.
